

Local radio stations ARE SERVING their communities needs with thousands of PSA's, Talk interview programs, and actual personnel involvement. Satellite radio was to be a national...NOT LOCAL service. Please demand that they stay within the bounds they were authorized to operate in. You make local broadcasters adhere...why not them? We're invested locally, they are not. By allowing them to "be local" you are setting up unfair competition for local broadcasters who have millions invested in their communities. Thank you for reading my message and I hope you will hold on to the original guidelines for Satellite radio.
